RUNE CARDS

ASSEMBLY INSTRUCTIONS

This PDF includes two pages of Rune cards. There are 16 cards with a total 28 unique game effects (not every card has 2 options). Our club loves using Rune cards to make our games more unpredictable and we encourage you to give them a try!

Print these cards at home in color or black and white, as desired. It should take no more than 15 minutes to assemble all of your cards! For added durability, you can also purchase plastic card protector sleeves. The Rune cards in this supplement are commonly sized as “mini Euro-sized cards” and will fit into a 45mm x 68mm sleeve. See the Links & Resources page at www.Ravenfeast.com for potential retailers.

PHOTO TUTORIAL

STEP #1: Print the Rune cards on sturdy paper. You'll need scissors and a glue stick.

STEP #2: Cut out each card and fold them in half.

STEP #3: Secure the cards with a glue stick and now you're ready to play!

OPTIONAL STEP #4: Plastic protector sleeves can be found for as little as \$3 per 50 sleeves!

MARKERS

These custom markers are courtesy of Tod Allen Smith! He has made ravens for “Death Worthy of a Song,” red ruin tokens for wounds, and yellow spines for “Cowards.” Very creative! You can cut these paper tokens out, fold them in half, and glue them together much like the cards.
